ECM Opens Calibration Lab in Mexico

Expanding Metrology Services to Latin American Market

Topsfield, Massachusetts: On August 5, 2021, East Coast Metrology, LLC. (ECM Global Measurement Solutions) announced a partnership with TECMED-3D, a dimensional measurement and metrology equipment rental company based in Monterrey, Nuevo Leon, Mexico.

“Our partnership with TECMED-3D expands on our ability to offer customers in Latin America an ISO/IEC 17025 Accredited Calibration Certification for all portable new or pre-owned measuring instruments including laser trackers, laser scanners and portable CMM arms,” states Gary Confalone, President/CEO - ECM Global. Customers within the Latin American market will all reap the benefits of a convenient metrology service solution and support while eliminating the challenges often seen when parts and equipment cross the border.

In an effort to expand visibility for the metrology lab within the South and Central American borders, ECM announces the launch of their dedicated Latin American website focused on portable measuring equipment calibrations, and equipment rentals. Please visit <https://EastCoastMetrology.mx> to learn more.

“Companies seek greater speed and quality when keeping their equipment calibrated. With this TECMED-3D / ECM alliance, we get closer to the times and costs desired by customers.” ~ Hugo Martínez, General Manager – TECMED-3D

###

ABOUT TECMED-3D

TECMED-3D is the premiere metrology service provider in Monterrey, Nuevo Leon, Mexico. It's never been easier to select your metrology equipment with TECMED-3D while taking advantage of the many experienced operators available for your measurement and inspection needs. From professional dimensional reports to part certifications, TECMED-3D guarantees efficient and cost-effective metrology solutions.

ABOUT ECM - GLOBAL MEASUREMENT SOLUTIONS (ECM)

ECM - Global Measurement Solutions is an industry recognized metrology service company with special focus on portable measurement systems and laser scanning. Its team of expert engineers delivers a wide range of services, including quality training, systems integration, calibration, and equipment rentals. An industry leader for almost 20 years, ECM's certified metrology engineers provide specialized technical services, as well as on-site calibrations. With facilities in Detroit, Boston, and California, this USA-based firm successfully caters to a diverse range of manufacturing industries, including automotive, aerospace, power generation, architecture, and construction on a global

level. ECM takes pride in the ability to provide comprehensive solutions to meet customers' dimensional metrology, engineering and equipment needs.
